PRESS RELEASE

CenterTelecom Reported a 37.1% Growth in 1H 2006 IFRS OIBDA*

MOSCOW, 12 October, 2006 – OJSC CenterTelecom (RTS: ESMO, ESMOP; MICEX: CTLK, CTLKP; U.S. OTC: CRMUY), major provider of fixed-line telecommunications services in the Central Federal District of Russia, today announced its unaudited consolidated financial results for the first six months of 2006 in accordance with International Financial Reporting Standards (IFRS).

- Consolidated revenue for the first six months of 2006 reached RUR 13,899 million – a year-on-year increase of 2.2%.
- OIBDA reached RUR 4,673 million, or an increase of 37.1% versus 1H 2005. OIBDA margin rose to 33.6% from 25.1% a year ago.
- Operating profit surged 77.1% to RUR 2,037 million.
- The Company's net profit reached RUR 220 million compared to RUR 164 million net loss in 1H 2005.

CenterTelecom's CEO Sergey Pridantsev commented: «Considerable improvement in the Company's 1H 2006 operating and financial performance is due not only to the introduction of a new system of interaction between telecom operators but also reflects positive impact of our first steps in improving the Company's management system. Today CenterTelecom's management team faces a challenging task of implementing a comprehensive reform of the Company's commercial, investment, financial and human resources policies aimed at bringing the Company's performance in line with its leading international peers».

Financial Highlights

RUR million	1H 2006	1H 2005	Change y-o-y, %

Depreciation and amortization	2,636	2,259	16.7%
OIBDA	4,673	3,409	37.1%
Operating profit	2,037	1,150	77.1%
Net profit (loss)	220	(164)	Not applicable
OIBDA margin, %	33.6%	25.1%	
Operating margin, %	14.7%	8.5%	
Net margin, %	1.6%	Not applicable	

* OIBDA is a non-U.S. GAAP and non-IFRS financial measure. The Company defines OIBDA as operating income before depreciation and amortization. We think that OIBDA provides important information to investors since it is an indicator of the performance of the Company's business, including the Company's ability to finance capital expenditures, acquisitions and other investments, as well as its ability to incur and service debt.

Despite the expected decrease in revenues attributable to the introduction of a new system of interaction between telecom operators (please see Revenues Section), in the first half of 2006 revenue rose 2.2% year-on-year and reached RUR 13,899 million due to an increase in regulated tariffs in the fourth quarter of 2005 as well as growing sales of value-added telecom services.

At the same time operating expenses declined by 4.7% to RUR 11,862 million. This decrease is attributable mainly to the introduction of a new system of interaction between operators and improved collection of accounts receivable, which resulted in a decrease in bad and doubtful debt provision. One of the management's priority tasks today is an introduction of strict controls over expenses aimed at further OpEx optimization.

As a result, OIBDA reached RUR 4,673 million – an increase of 37.1% year-on-year. OIBDA margin grew to 33.6% from 25.1%.

Operating profit rose by 77.1% to RUR 2,037 million.

Owing to positive operating profit dynamics, 1H 2006 net profit grew to RUR 220 million compared to a net loss of RUR 164 million in the first half of 2005.

Revenues

CenterTelecom revenues for the first six months of 2006 totaled RUR 13,899 million compared to RUR 13,594 million in 1H 2005.

The introduction of a new system of interaction between telecom operators had a major effect on the Company's revenues. Starting 1 January, 2006, CenterTelecom no longer renders domestic (except intrazonal) and international long-distance telephone services. In accordance with the new legislation, such services are rendered exclusively by long-distance telecommunications operators. Local and zonal telecom operators, including CenterTelecom, provide access to subscribers using their networks and render billing services to long-distance telecom operators. They charge long-distance operators an agent fee for such services. Agent fee is reported among revenues from Russian telecom operators.

As a result, the Company no longer reports revenues from long-distance services in its financial results. As previously long-distance revenues represented around 25% of total Company revenue (RUR 3,438 million in 1H 2005), the above changes had a negative effect on 1H 2006 revenue dynamics and volume. At the same time CenterTelecom's revenues from Russian telecom operators rose by RUR 2,388 million to RUR 3,324 million in 1H 2006.

Despite this, the Company succeeded in maintaining positive revenue dynamics and in securing revenue growth of 2.2% year-on-year.

Revenues from local telephone calls in 1H 2006 reached RUR 6,680 million, an increase of 15.7% compared to RUR 5,773 million in 1H 2005.

Revenues from new services (hereinafter – “value-added telecom services” or “VAS”, including Internet, data transmission, etc.) rose considerably — by 47,0% — reaching RUR 1,161 million compared to RUR 790 million in 1H 2005. Therefore share of VAS in total revenue reached 8.4% versus 5.8% for the first six months of 2005. This growth is attributable to the implementation of a new marketing policy aimed at attracting new corporate clients and promoting broadband Internet services under the DOMOLINK brand.

Revenue Structure (RUR million)

Revenues	1H 2006	1H 2005	Change y-o-y, %
Local telephone calls	6,680	5,773	15.7%
Services for Russian operators	3,324	936	255.1%
Zonal telephone calls	1,158	1,018	13.8%
New services (Value-added services)	1,161	790	47.0%
Rent of the telephone channels	159	138	15.2%
Long-distance calls	0	3,438	Not applicable
Other telecom services	1,050	1,089	-3.6%
Other revenue	367	412	-10.9%
Total	13,899	13,594	2.2%

Operating Expenses

CenterTelecom operating expenses totaled RUR 11,862 million in 1H 2006 – a decrease of 4.7% versus 1H 2005. The decline is primarily due to the introduction of the new system of interaction between operators and partial recovery of doubtful debts.

Staff costs reached RUR 5,097 million, growing 7.9% year-on-year due to wages indexation in line with inflation as well as to compensation payments related to staff reductions. The management has started working actively on the Company's headcount optimization – already in 1H 2006 total number of employees was reduced by 7.1% - from 65,208 people on 01 January, 2006 to 60,546 people as of 30 June, 2006).

Payments to telecommunications operators for interconnection in 1H 2006 totaled RUR 596 million, declining by RUR 1,366 million or 69.9% versus 1H 2005. This reduction is explained by the fact that CenterTelecom no longer renders long-distance services to its subscribers (as described above) and consequently does not pay to long-distance operators for traffic transmission.

Partial recovery of doubtful debts resulted in a reduction of bad debt provision in the amount of RUR 86 million reported as a profit compared to a RUR 260 million bad debt expense in 1H 2005. Partial bad debt recovery is a result of the management's activities aimed at raising efficiency of the Company's client business and improving collection of receivables.

Other operating expenses amounted to RUR 1,842 million – an increase of 14.3% year-on-year. As noted above, the management considers optimization of operating expenses by means of headcount optimization and G&A reduction one of its priority tasks.

OIBDA increased 37.1% to RUR 4,673 million. OIBDA margin rose from 25.1% to 33.6%.

Depreciation and amortization grew owing to the implementation of the Company's investment program and fixed assets commissioning. In 1H 2006 depreciation rose 16.7% reaching RUR 2,636 million compared to RUR 2,259 million in 1H 2005.

Growth in the Company's operating profit for the first six months of 2006 reached 77.1%. Operating revenue totaled RUR 2,037 million.

Operating Expenses Structure (RUR million)

Operating expenses	1H 2006	1H 2005	Change y-o-y, %
Wages, salaries, other benefits and payroll taxes	5,097	4,723	7.9%
Depreciation and amortization	2,636	2,259	16.7%
Materials, repairs and maintenance, utilities	1,365	1,303	4.8%
Interconnection charges (payments to telecom operators)	596	1,962	-69.6%
Taxes other than income tax	430	382	12.6%
Provision for impairment of receivables (bad debt expense (profit))	(86)	260	Not applicable
Gain (Loss) on disposal of PP&E	(18)	(54)	-66.7%
Other operating expenses including	1,842	1,611	14.3%
<i>Lease of premises, etc.</i>	268	215	24.7%
<i>Payments to the Universal Service Fund</i>	119	47	153.2%
<i>Insurance</i>	104	106	-1.9%
Total	11,862	12,444	-4.7%

Non-Operating Profit (Loss)

Net interest expense was the key non-operating item, reaching RUR 1,371 million in 1H 2006. It practically did not change compared to the same period of the last year. High level of interest expense is a consequence of a substantial debt burden and high interest rates on debts incurred earlier. A new financial strategy developed by CenterTelecom management is particularly aimed at optimization of the Company's debt and reduction of its servicing cost.

Net Profit

Due to positive dynamics of operating profit and lack of growth in interest expense the Company's net profit in 1H 2006 reached RUR 220 million versus net loss of RUR 164 million in 1H 2005.

Important Disclaimers

These reports are unaudited consolidated financial statements of JSC CenterTelecom. No procedures of audit, review or other similar procedures will be performed in respect of these statements.

In preparing these unaudited consolidated financial statements, JSC CenterTelecom used less procedures than could have been used in preparing annual consolidated financial statements. In this context, JSC CenterTelecom has used some assumptions, including those concerning the fair value of assets and liabilities of acquired subsidiaries and dependent companies, the value of pension provision liabilities, deferred income, fixed assets depreciation reserves, inventory holdings and accounts receivable. The actual figures of the financial reporting for the year that expired on 31st December 2006 may differ from the figures of these financial statements, as there might have been some adjustments of the information on assumptions used by the Company and some other new information might have appeared.

Some statements of this news release are "forward-looking statements" and influenced by the risks, uncertainty factor and other factors, and as a result of this influence actual results may appreciably differ from the results mentioned in the news release.

The Company bears no obligation to disclose publicly any update related to the news release either to reflect the events or circumstances, which will take place after the date of this news release, or to point out unforeseen events, except for the cases, when such disclosure shall be demanded pursuant to the US Federal laws on securities.

On 1 Jan., 2006 a number of legal acts regulating the activities of telecommunications operators in Russia came into effect. This required implementing considerable changes to the system of interaction between telecommunications operators as well as between the operators and their customers. As a result of changes in the industry's legislation, technical, economic and organizational models of interaction between operators as well as between operators and customers changed substantially.

From 1 Jan., 2006, only Rostelecom and other operators awarded relevant licenses may render long distance telecommunications services to subscribers. Using its local and zonal network CenterTelecom provides to Rostelecom and other long-distance operators services of initiation and termination of long-distance calls and also acts as an agent on behalf of long-distance operators, i.e. informs customers of tariff changes, submits invoices for rendered telecommunications services, collects payments and recovers debts for telecommunications services.

Additionally, CenterTelecom and Rostelecom have signed an agent agreement whereby CenterTelecom acts on behalf of Rostelecom in order to conclude contracts on provision of long-distance telecommunications services with corporate clients and with operators connected to the CenterTelecom network. On the basis of such contracts, such operators will also act as Rostelecom's agents for third parties.

OJSC «CenterTelecom» is the largest fixed-line telecommunications company operating in the Central Federal District, where more than 20% of the Russian population lives. The Company provides its customers with wide range of telecommunications services, including local and intrazonal telephone calls, high speed Internet access via xDSL technology, data transmission, wireline and on-air radio broadcasting, cable TV broadcasting. The Company also provides interconnection and traffic transmission services to other telecom operators. CenterTelecom actively develops broadband multiservice backbone network and customer access networks on the basis of cutting-edge telecommunication technologies.

The company's shares are traded on RTS (ESMO, ESMOP) and MICEX (CTLK, CTLKP). Its Level 1 ADRs are traded on the US OTC market (CRMUY), and the Berlin (CRMUY.BE) and Frankfurt (CRMUY.F) Stock Exchanges

1. General

Authorization of Accounts

The unaudited Consolidated Financial Statements of JSC CenterTelecom ("Company") and its subsidiaries (jointly referred to as the "Group") have been prepared for the six months ended June 30, 2006.

Principles of preparing the unaudited Consolidated Financial Statements

The financial statements of JSC CenterTelecom for the first half of 2006 according to IFRS are presented as the balance sheet, profit and loss report and notes to the financial statements. These statements do not contain all disclosures required according to IFRS, however, the details supplied are sufficient to obtain an idea of the financial standing and the results of the Company's activities for the period.

These reports are the unaudited Consolidated Financial Statements of JSC CenterTelecom. No procedures of audit, review or other similar procedures will be performed in respect of these statements.

In preparing these unaudited Consolidated Financial Statements, JSC CenterTelecom carried out procedures to a lesser extent than would have been used in preparing annual Consolidated Financial Statements. In this context, JSC CenterTelecom has applied some assumptions, including those concerning the fair value of assets and liabilities of acquired subsidiaries and dependent companies, the value of pension provision liabilities, deferred income, fixed assets depreciation reserves, inventory holdings and accounts receivable. The actual figures of the financial reporting for the year that expires on 31st December 2006 may differ from the figures in these financial statements, as there might have been some adjustments of the information on assumptions used by the Company and some other new information might have appeared.

The content of the notes to the unaudited Consolidated Financial Statements of JSC CenterTelecom do not disclose fully all the information, the disclosure of which is required for compliance with International Financial Reporting Standards.

The content of the notes to the annual Consolidated Financial Statements of JSC CenterTelecom may disclose information in greater detail than disclosed in these unaudited Consolidated Financial Statements of JSC CenterTelecom.
